

PRODUCT INFORMATION SHEET

Segmented-diamond hole-saw drill bits

Product description

Segmented-diamond hole-saw drill bits are designed to bore holes in hard concrete materials.

Characteristics

- 4 turbo segments reduce the time required for boring by up to 40% when compared to hole-saw drill bits with the traditional flat segment;
- segments are installed using modern laser-beam fusion welding technology, which enhances the durability of hole-saw drill bits;
- made of high-quality alloy steel;
- can be combined with various removable adapters;
- handy plastic tube makes storage a lot more convenient.
